<p>STATE GOAL 15: Understand economic systems, with an emphasis on the United States.</p>	
<p>Why This Goal Is Important: Why This Goal Is Important: People's lives are directly affected by the economies of cities, states, nations and the world. All people engage in economic activity: buying, selling, trading, producing and consuming. By understanding economic systems—and how economics blends with other social sciences, students will be able to make more informed choices, prudently use resources and function as effective participants in the economies around them.</p>	
<p>B. Understand that scarcity necessitates choices by consumers.</p>	
<p>15.B.3a Describe the “market clearing price” of a good or service.</p>	<p>See Glencoe’s <i>Economics: Today and Tomorrow</i> © 2008 for a discussion of equilibrium price. Student Edition: 195-197 <i>Figure 7.10</i> 195 <i>Figure 7.11</i> 196</p>

<p>STATE GOAL 16: Understand events, trends, individuals and movements shaping the history of Illinois, the United States and other nations.</p>	
<p>Why This Goal Is Important: George Santayana said "those who cannot remember the past are condemned to repeat it." In a broader sense, students who can examine and analyze the events of the past have a powerful tool for understanding the events of today and the future. They develop an understanding of how people, nations, actions and interactions have led to today's realities. In the process, they can better define their own roles as participating citizens.</p>

<p>STATE GOAL 17: Understand world geography and the effects of geography on society, with an emphasis on the United States.</p>	
<p>Why This Goal Is Important: The need for geographic literacy has never been greater or more obvious than in today's tightly interrelated world. Students must understand the world's physical features, how they blend with social systems and how they affect economies, politics and human interaction. Isolated geographic facts are not enough. To grasp geography and its effect on individuals and societies, students must know the broad concepts of spatial patterns, mapping, population and physical systems (land, air, water). The combination of geographic facts and broad concepts provides a deeper understanding of geography and its effects on individuals and societies.</p>

STATE GOAL 18: Understand social systems, with an emphasis on the United States.	
<p>Why This Goal Is Important: A study of social systems has two important aspects that help people understand their roles as individuals and members of society. The first aspect is culture consisting of the language, literature, arts and traditions of various groups of people. Students should understand common characteristics of different cultures and explain how cultural contributions shape societies over time. The second aspect is the interaction among individuals, groups and institutions. Students should know how and why groups and institutions are formed, what roles they play in society, and how individuals and groups interact with and influence institutions.</p>
