

Organelle picture cards

Organelle arrow cards

**endoplasmic reticulum—  
processes materials and  
moves them inside the cell**

**cell—  
smallest unit of an organism**

**nucleus—  
controls all cell activities**

**ribosomes—  
small structures that  
make proteins**

**Golgi bodies—  
sorts and packages proteins**

**mitochondria—  
powerhouse of the cell**

**central vacuole—  
stores food, enzymes,  
and water**

**cell membrane—  
outercovering**

**chloroplast—  
uses light energy to  
produce plant's food**

**cell wall—  
tough, rigid covering  
of plant cell**
