Chapter: **13** Section: **2** **Reading Strategy**

Name:

Date:

**Directions:** **Making Generalizations** Use the diagram below to make a generalization about the climate of Africa south of the Sahara. In the smaller boxes, write three facts about the region's climate. Then, in the larger box, write a generalization you can draw from those facts.

The diagram consists of three small rectangular boxes stacked vertically on the left side. Each of these boxes has a yellow arrow pointing to the right, towards a single large rectangular box on the right side. This layout is designed for students to write three facts in the smaller boxes and then use those facts to write a generalization in the larger box.
